Furaha Africa Relief Association (FARA)

HOW YOU CAN SUPPORT

CHILD SPONSORSHIP PROGRAM

Through this program you can have a lasting impact on a child's life. For \$35/month, your generosity will support the education, nutrition and basic needs (medical and food) of a child or youth. Through this aid, children and youth will be empowered to have hope and become self-supporting, which is critical to their future. In addition to financial and material support, FARA endeavours to provide spiritual guidance to children in the East Africa. By financially supporting these basic needs, you are blessing future generations - ensuring they are set up to achieve their vocational dreams and to become leaders in their communities.

RELIEF PROJECTS

We endeavour to support the needs of the communities that we partner with through relief projects. We work closely with our agent on the ground to understand local priorities and needs. The projects we support also align with our organization's mission and objectives. Projects are typically focused on:

- Providing education
- Ensuring healthcare
- Assisting with the financing of building/construction projects
- Supporting self-sustaining small business projects
- Developing leadership

WHO WE ARE

Furaha Africa Relief Association (FARA) is a non-profit organization, founded in 2020 that works to support the most vulnerable children, youth and families in East Africa.

FARA seeks to bring hope and restoration to communities in Uganda, South Sudan and the Democratic Republic of Congo. Through the support of our generous sponsors we are able to support children in communities throughout East Africa, through our Child Sponsorship Program and other Relief Projects.

OUR MISSION

To relieve poverty by providing basic necessities such as education, nutrition, medical and health care and social services to vulnerable children and youth in East Africa.

We believe that children are the future leaders of the church, communities and countries across the globe.
