SPONSORSHIP COUNTS!

Angel Namagembe

I am grateful to God for He has been so good to me and my family, providing for and protecting us. I'm honoured and excited to inform you that I finally graduated (Certificate in midwifery) by the grace of God. It's so amazing that you've been part of my journey since primary school! For all the random gifts, financial support and Christmas gifts I'm so humbled and grateful. Thank you for being here for me. Currently, I've been volunteering in a health centre nearby and working in a drug shop weekly. (Drug Shop is located in Wakiso and a bit far from home). I also take this opportunity to thank the whole sponsorship program for I've not only benefitted financially and academically but also spiritually. Since we've been encouraged and continually welcomed to be part of the church, this has helped me alot in maintaining a good relationship with God. And because of this I can boldly boast that I've not been consumed by worldly patterns for I know I always run to God for anything. And I really believe I'm not the only person who's been greatly impacted by this program. May the Almighty bless you all, the entire administration and all stakeholders, may you all live to see the goodness of the Lord in the land of the living. AMEN.

PETER AGGI

From Hope to Purpose: A Journey Shaped by Faith, Family, and Rooted in the Church

Growing up I desired an education and an opportunity to become someone who could make a difference. However, financial limitations stood between me and those dreams. This is when the Church of God stepped into my life, not just as a sponsor, but as a lifeline to shape my entire future.

From my early years in primary school, the Church of God supported my education. Not just simply paying school but also a significant investment in my life. In secondary school, knowing that I had support it kept me focused. I worked hard and had motivation to excel academically and grow personally. I advanced to university and I pursued a degree in computer science, following my interest in technology and became a software developer.

Today, I am proud to say that I have secured a job and also the founder of Kanlyte Uganda Limited a company that reflects my vision of using technology to create impact and opportunities for others. I am now in a position to support my siblings in their education and opportunities. I am now pursuing a Master's degree in Computer Science, funding my own education, a full-circle moment.

The sponsorship I received was not just financial aid but was also transformative. My challenges became stepping stones, my doubts into determination, and my dreams became achievable goals. I am who I am today because Church of God believed in me, and for that, I will forever be grateful.
